MONITORING

The band uses **regular stage wedges**, no in-ear monitoring.

Monitor mix preferences:

- **Drums:** both guitars, own drums as needed (kick, snare)
- **Bass:** right guitar, own vocal
- **Left guitar (Tomas):** own vocal and slight general band mix.
- **Right guitar (Ondra):** a bit of left guitar, own vocal
- **Front wedges:** kick and snare in all three front monitors on larger stages.

Overall, we prefer a **balanced mix with clear vocals** and well-heard guitars.

BACKLINE

The band normally brings **its own full backline**, including:

- Guitar heads and cabinets
- Bass amp and cabinet
- Drum kit

If backline is provided by organizer, please ensure:

- **2x hi-gain guitar heads** (Peavey 6505 / Mesa Boogie Dual Rectifier or similar)
